WE'RE FOR AMERICA! AMERICANS!

Wonder if there'll be enough jays in Kentucky to sign a petition for a People's Party on next year's ticket? That's the only way we can be inflicted with the folly.

MARK HANNA, in an interview, asserts that FORAKER is now allied with McKinley and SHERMAN in politics. He says an agreement was made that FORAKER should be Senator and that McKinley should have Ohio's united support for the Presidency.

The much-praised Wilson Tariff Bill last year fell short by \$25,207,246 of raising enough revenue to pay the running expenses of the Government. And yet the Democratic Editors are trying to bamboozle their readers by declaring that the bill is a better revenue-raiser than the McKinley Bill.

For the first ninety days following the 4th of March, 1893, more appointments and dismissals were made in the Treasury Department than during the entire four years of President CLEVELAND's former Administration. The men appointed were Democrats. And yet Mr. CLEVELAND poses as a Civil Service reformer, who now wants to "protect" all these Democratic appointees by giving them a life tenure on their positions.

It is said an ingenious Chicago woman has invented a machine for darning stockings. The legitimate conclusion of course is that the invention is for Chicago stockings or socks only. The outside world is not likely to be benefited. In the business of darning it is always necessary that there be an inside as well as an outside worker. The two most work in harmony and simultaneously if the results are symmetrical. A machine that will work with a Chicago stocking will never work with stockings worn by men and women not likely enough to live among that spray-footed people. In any but a Chicago stocking there is not room for the necessary scaffolding on which the carpenter or darning can stand while building the lattice work, called by courtesy a darn. Outside of Chicago, therefore, the old custom will have to continue of running a string around the hole, gathering it and tying the ends. Who wants a darned sock or stocking, anyway? Wasn't it Rev. BOB INGBOLDS of some other man equally plain, who said he would rather have a hole in his sock than a darn because a hole in a sock might be the accident of an hour a darn was premeditated porosity?

TO CURE A COLD IN ONE DAY
Take six or eight Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

Extension tables in which the leaves can be placed in the underside when not in use are now. The leaves fold through the center and are laid in a pocket under the table top, thus doing away with the risk generally used for this purpose.

The young tragic actor, John Griffith, assisted by Anna Boyle Moore, Eugene Moore and an excellent company, will appear at the Washington Opera house tomorrow night with his elaborate production of "Pique". One of the prettiest effects in this play, and one new to this city, is the transition from daylight—with a setting sun and red sky—to darkness, and the appearance, one by one, of twinkling stars, at the end of the second act.

Two Big "Bills" That Talk About Several Other Bills.

THE GOVERNOR'S HOT SHOT.

He Responds to Some Unwarranted Criticisms From Judge Beckner.

BLAME WHERE IT BELONGS

Recently Judge William M. Beckner—the tireless talker from Talkington, Clark county, unnumbered his guns on Governor Bradley, the tumble reider, the proposed extra session of the Legislature, and took a crack at creation generally.

His attention having been drawn to Judge Beckner's letter, Governor Bradley said:

"I regret that the soul of Judge Beckner cannot find rest. He is very much interested in having such legislation speedily enacted as will 'pay the liabilities of the Commonwealth,' because the Governor is not doing his duty. Probably the Judge has forgotten, or it may be that he never knew, that the Governor in his message to the last Legislature called, especial attention to this matter, and requested steps should be taken to liquidate all claims, and that, although the Republican House enacted such measures, a Democratic Senate refused to concur therein. What a great pity it is that the Judge did not at that time bring his ponderous intellect and charming personality into play and persuade his Democratic brethren to do something to pay the debts which they had contracted.

"It may be, too, that it has never occurred to him that on account of this failure to pass needed legislation the people of the state who held these claims were forced to sell them at 50 per cent. discount to curbstone brokers and bankers, and that no legislation can be had which will recompense them for a loss caused by Democratic stubbornness and incompetency. Even should a bill now be passed it would hurt only to the benefit of the bankers and brokers who have bought these claims on a margin which would enable them to profitably wait until the regular session.

"He complains, too, because 'banded outlaws' desert property with impunity while sight of the Capitol,' while the Governor does nothing to prevent or punish. What would he have the Governor do? Does not even he know that the Governor cannot punish these outlaws? He cannot even offer a reward. The statutes allow a reward offered by the Governor only in aggravated cases of murder and felonies against the person, and even then he cannot offer a reward unless requested to do so by the Judge of the County Court in the county or the Judge of the Circuit Court in the district where the crime was committed. The Judge probably has forgotten that the officers of Franklin county are all members of his political party, and up to this time have not shown any burning desire to bring these outlaws to justice. I have not heard of any murder or felony against the person having been committed by these violators of the law, and even if there had been the County and Circuit Judges, having failed to request, I could not offer a reward.

"Whenever the county officials in Franklin or any other county undertake to enforce the law, they will find me more than willing to stand by them. These tumble reider are a blot on the good name of the state. Every law-abiding citizen should interest himself in maintaining the majesty of the law, but I am powerless to perform their duties for them. I cannot issue warrants and make arrests, but stand ready at all times to assist in the good work when it is inaugurated.

"The present statute has been the law in Kentucky for many years. Under that statute, as already stated, the power of the Governor to offer rewards is limited, and, although the Judge was for years a member of the House, his eagle eyes never detected the inadequate provisions of the law, or his envious desire to prevent crime and bring criminals to justice never suggested to him the propriety or necessity for additional legislation."

Appreciators have agreed on \$70,000 as a fair price for the city to pay for turnpikes in the corporate limits of Louisville. The Council will be asked to pay the money.

Dr. Parkhurst says Dr. Beckner's Shop-keepers Kill Young Girls.

Dr. Parkhurst took the war path in New York recently, and in a sensational sermon said, among other things:

"I do not know how many unfaithful husbands or wives there are in this community, but I should calculate that there might be well on toward a quarter of a million. I would not at any rate of premium issue an insurance policy on any couple's conjugal felicity good for more than five years unless on the contingency of offspring or on the basis of their common faith in God.

"If a lady goes to the store and buys an article that she is sure is marvellously cheap, she knows that some poor girl in some sickly back alley has been half-paid for her work. She does not kill the girl outright, but she helps to kill her by inches. And then she encourages herself in imagining that she is not a blood-sucker and a murderer by joining a relief or rescue society."

INCH BY INCH

The Waters at Chipewaga Falls, Wis., Are Crawling Up.

The Ice George Threatened the Destruction of the Little City.

Should the Fall-Flow Be a Terrible Disaster? The Waters at Chipewaga Falls, Wis., Are Crawling Up.

CHIPPewa Falls, Wis., Dec. 3.—A very heart in this place, for the ice above the city is growing large and more formidable every hour. It is now a solid wall of water, and it would sweep the village from the earth. Enough water is driving over the ice to make it crawl up inch by inch the relentless crawling up, and there has been a general scramble to get out of the city. The water is now at a maximum height of 30 feet, and the business of the city has been abandoned. Large retail stores have moved their effects to places of safety, and over fifty stores have closed their doors. The water continues to rise at the rate of one inch an hour, and the situation follows in the path of the river. The river at this point is a surface of ice, and the water is to a depth varying from thirty to thirty feet. The most stubborn resistance is offered by the obstruction in the path of the river between the bridge and the central railroad bridge, about half a mile in length. The water continues to rise, and it is now over five feet high in places 30 to 50 feet high. It completely dams the river, and this is what is causing the rapid rise of the river here. The heavy rains of last week were followed by a sudden freeze, which quickly made the ice in the Chipewaga and the water running continually added to it. It reached its present gigantic proportions. Below here the Chipewaga is falling.

A report that another gorge is forming at Little Falls, 30 miles above, has been brought in, and increases the alarm, as in case of its breaking suddenly the whole city would be swept away. At Flambeau Farm, 15 miles above this city, another ice gorge has formed. The river has overflowed its banks and inundated the country to the distance of 30 miles on either side. Domestic animals have perished by the score and farm houses are flooded, and the losses will reach into the hundreds of thousands. These reports are meager and uncorroborated, but it is safe to estimate that at least a few cows, calves and hogs have met death in the flood.

A large amount of dynamite has arrived, and men are at work trying to place it in order to break the jam. The Wisconsin Central depot is under water and will be carried away before night.

Fifty of the largest business houses have been abandoned. An estimate of the damage in and about Chipewaga Falls reaches over \$1,000,000. The town will be in danger when the Chipewaga Falls gorge is broken.

At 3:30 p. m. Wednesday the water was 27 feet above low water mark, and still rising. The greatest excitement prevails. There is no hope of breaking the ice gorge with dynamite, and the work has been abandoned. That the city is doomed is a matter of fact.

At 11 o'clock Wednesday night the water was 28 feet above low water mark. Every place of business on Spring, River and Howe bridge streets has been vacated.

A rumor to the effect that the river would cut a passage way for itself through the high banks of the Central railroad bridge has given rise to great apprehension. The river's course is obstructed by the ice, which has reached within a short distance of the dam and the probable tanning of the course of the stream upon the city seems so plausible that every one is panic-stricken. A report that the little falls dam had given way to the pressure upon it has reached the city. If it is a fact, an enormous body of water will be precipitated upon the city about 3 o'clock Thursday morning, and it will take that length of time for the water to travel the forty miles of river bottom between here and the point indicated. Spring street is impassable between Bridge and Hay streets and the water is climbing steadily towards the basement of the city hall. It is impossible to see how any of the lower portion of the town can escape, for the coming of the water seems as sure as it is deluge. The valley may be completely inundated if the rise continues.

Salisbury Will Make a Pretext.

LONDON, Dec. 3.—The Manchester Guardian Wednesday says that Lord Salisbury, prime minister and secretary of state for foreign affairs, will make very strong representations to the Spanish government in regard to the detention in Cuba of Richard and John Healy, residents of British Columbia, who were recently arrested in Havana and being taken away connected with the Cuban revolution.

The Mineders Proposed Strike. CHICAGO, Dec. 3.—A special from Columbus, O., says State President C. B. Rathford, of the United Mine Workers, expressed himself emphatically about a strike of the Pittsburg miners in case the operators refuse to grant the six cents advance asked for. Mr. Rathford says in case of a strike he will not only withdraw his support, but will order Ohio out in sympathy. If such action will influence the result in favor of Pittsburgh. The situation in Pittsburgh is unchanged.

THE HEBREW UNION

Devoted to the Hebrew Union. Dec. 3.—The Hebrew Union of the United States of America, which was organized Wednesday afternoon with one of the most important sessions in the organization's history. It was decided to secure an endowment fund of \$50,000 for the Hebrew Union college of Cincinnati, the executive board to have control of the fund. Rev. A. L. Louch, of New Orleans, guaranteed to raise \$100,000 of the fund.

It was also decided to take part in the parliament of the religions at the Nashville centennial next year, and the appointment of a committee of five to co-operate with the central conference of the religious rabbis in making arrangements was recommended. The Sabbath School and an act incorporated in the act of American Hebrew congregations. The National Council of Jewish Women was interested and rabbis were to sign a statement at the time possible. There was a long discussion on the report of the committee on civil and religious rights, which is a very strong document and calls for action on the public press. The duty of the rabbis is to hold in holding that it will be more efficient than working through the state department. It is held, however, that the duty of the rabbis is to protect against the persecution of any people on account of religious belief, and where protest is fruitless to the rabbis to take action to secure the sacred rights of human beings. The report opposes any change in the constitution of the United States toward recognizing any form of religion and it is reported that the board of delegates last year and maintain the status quo. The report also contains a list of executive proclamations of phrases recognizing particular religious doctrine.

Four Chicago Children Locked in a House, Dead.

They Procured Matches and Accidentally Fired a Pile of Clothes.

On the Mother's Return Her Little Ones Were Found Lying Dead on the Floor—Cause to Escape They Had Found Smothered by the Smoke.

CHICAGO, Dec. 3.—Four children locked in a house at 1310 Fifth-third avenue were smothered to death during a fire in a pile of clothing in the house where they all were playing Wednesday. Mary Barth, the mother, left the house at 10:30 o'clock to go to the Chicago Milwaukee & St. Paul railway yards to pick coal, looking the door behind her. The children, Joseph, six years; Rosie, four years; John, two years, and Louis, one year, were playing in the dining room. During the absence of the mother they secured a box of matches, and it is supposed that they were lighting them. The curtains over the only window in the room were burned and the elements were scorched. The distressed mother returned two hours later to find the house filled with smoke. The heap of burned clothing was still smoldering, and the bodies of the little ones were lying on the floor.

An empty bucket was nearby indicating an attempt had been made to extinguish the flames. Unable to open doors or windows and having exhausted the supply of water in the house the children were overcome in the dense smoke that filled the white house and were dead before assistance came. John Barth, the father, a teamster and had left home to attend to his work early Wednesday morning.

HEAVY HAIL.

Bar-rose Rob on Omaha Loan Office of one of the \$100,000 in watches, jewelry and diamonds.

OMAHA, Neb., Dec. 3.—Burglars broke into the safe of the Omaha Loan Office and looted it of upwards of \$5,000 worth of watches, diamonds and jewelry.

The safe door knob was knocked off and a hole drilled through the lock, control by the big bolt which manipulates the combination. A small hole in the lock and the big bolt were drilled without the use of explosives or creating any noise.

The inside doors were opened simultaneously with the result that the contents of the safe, representing about \$5,000, were at the disposal of the robbers.

Eleven trays of watches, diamonds and jewels were emptied and the robbers disappeared without leaving anything but two broken drawers and their methods of procedure to the police upon which to base a clue.

KENTUCKY TRAGEDY.

Two Kentucky Men in Street Shot and Killed.

GLASGOW, Ky., Dec. 3.—H. K. Staples, postmaster and railroad station agent at Oil City, in this county, was shot and perhaps fatally wounded about noon Wednesday while standing in his office engaged in putting up mail for the Glasgow train. Two men, Arthur Crump and Raymond Jackson, it is said, rushed in on him and commenced shooting at him. Crump, who is Staples's brother-in-law, using a double-barrel shotgun. But for the timely arrival of the railroad bridge master Staples would have been killed. The wounded man was carried to his home, and when the train arrived the office was found locked up and deserted. A note was handed Conductor Crigler by a man on the platform stating that the station agent had been shot and taken home. No further particulars or the cause of the shooting could be learned. Crump and Jackson ran off after the shooting, and have not yet been arrested.
